

Appendix

New Partners in 2005

IC

Taiwan Shintex Co., Ltd.

Invested US\$0.7 million in IC and LCM packaging for FPD products.

Optoelectronics

Intelligent Research Co., Ltd. (Chisso)

invested US\$6.2 million in liquid crystal, and alignment layer.

Kismart Corporation

invested US\$1.9 million in screen protector, and non-chromate metal finishing.

Sintek Photronic Corporation Tainan Branch Office

invested US\$138 million in color filter.

Biotechnology

Green Health Biotechnology Co., Ltd. STSP Branch

invested US\$4.66 million in healthy food, and herbal medicines.

Tong Yang Technology Inc. STSP Branch

invested US\$1.4 million in botanical functional foods, and healthy foods of policosanol ester-related.

Precision Machinery

Taiwan Daifuku Co., Ltd.

Invested US\$3.9 million in automated material handling system and peripheral equipment as well as automated equipment for manufacturing process.

Taibest Technology Corporation

invested US\$1.6 million in Gas Turbine Component.

Hermes Microvision, Inc. STSPA Branch Company

invested US\$3.1 million in e-beam inspection tool.

Bay Zu Precision Co., Ltd.

invested US\$10.9 million in chambers and components for thin film vacuum coating equipments.

ULVAC Taiwan Manufacturing Corporation

invested US\$15.2 million in optoelectronics and semiconductor process devices.

Ultra Clean Precision Technology Corp.

invested US\$10 million in the development and application for automation manufacturing process device and precise processing technology of components, the development and application for energy conservation device and surface reproduction processing technology.

Ever Advanced Precision Technology Ltd.

invested US\$2.5 million in automatic and optical inspection systems.

Te Hung En Enterprise Corporation

invested US\$3.1 million in high precision optical sorter, and automatic desktop high precision optical measuring equipment.

Optimize Technology Corporation

invested US\$0.6 million in nozzle, and key components of glass-edge seaming machine.

TOPCO Scientific Co., Ltd.

invested US\$2.2 million in equipments and parts for processes of semiconductor and optoelectronics industries, total parts service for semiconductor and optoelectronics industries.

Telecommunications

Charming Systems Corporation

Invested US\$1.9 million in e-automation.

ST&T Electric Corporation

invested US\$6.2 million in broadband and multimedia network products, digital powermeters and smart home appliance communication module, digital home network communication and management system module.

Others

TEAMCera Corp.,(KSP Branch)

Invested US\$0.4 million in zircoia ceramic parts, YAG powder in optoelectronics industry, and low temperature co-fire ceramic powder.

Sanjoe Metal Technology Co., Ltd.

invested US\$12.4 million in lead-free tin alloy and the related manufactures.

Taiwan Advanced Materials Technologies Corporation

invested US\$7.4 million in fine materials, relevant components and systems.
